Issue 3

October 2008

Hubble Bubble Network Trouble

It's Halloween 2008 and we hope that you aren't having any trouble with your net-

work. If you are you need to get in touch and we will get rid of the gremlins

and ghosts in the machine.

Let us do a free network survey and discover what is going wrong.

Whether it's wireless or wired, we can find out what is causing the problems and fix it.

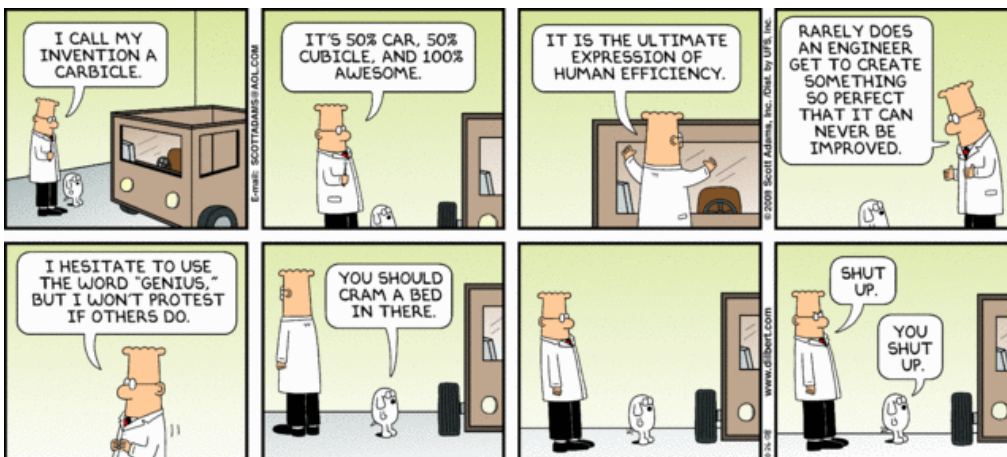

You may find that certain computers or devices don't seem to work properly, and that could quite well be down to something as simple as a network issue that can be easily resolved.

DIS install WLAN solutions for two happy customers

UYT Limited

Established in 1996 as a joint venture between Japanese and British manufacturers, UYT Limited is an automotive component manufacturing facility producing Body-in-White (BIW) components and sunroof assemblies. UYT Limited has taken the best practices of its parent companies and united them to make UYT Limited a progressive and

successful automotive component manufacturer. Their wireless network (WLAN) is critical to its business operations and that is why they chose DIS and Cisco to deliver a world class solution.

For nearly 100 years, Hallmark Cards, Inc. has helped people connect with one another and give voice to

their feelings. They have grown from two shoeboxes of postcards into a \$4.4 billion company and their products can be found in 100 countries around the world. DIS have installed and support the LAN and WLAN at Hallmarks UK operations meeting new challenges that arise from a dynamic and pro-active company that demands the best. Ask us more about what we do with Hallmark, and how this knowledge and experience can help you too.

Registration and bacon sandwiches will be served at 8:30 and the first introduction will start at 9:00 sharp.

IP World Demo Day

To launch our IP World series of events we kick off on Wednesday the 19th of November, here at our Northern office in Cleckheaton.

Registration and bacon sandwiches will be served at 8:30 and the first introduction will start at 9:00 sharp.

We will break for coffee at approximately 10:30 and then continue to around 12:30

At this point lunch will be served. After lunch you can request individual sessions and demonstrations of the technologies and issues covered.

Registration for this event is mandatory as numbers are limited and as usual, we expect a full house. Please e-mail us and a registration document will be sent to you for completion. Also email us if you have any further questions about the event.

This month's featured technologies:

Network Fundamentals WLAN

- What are WLAN's and where should they be deployed?
- The 5 Myths of WLAN's
- Flexibility versus Security
- Autonomous versus Centralised Management

Access Control

- Benefits of IP Access Control Vs Traditional Lock and Key

IPCCTV

- Benefits of IP CCTV Vs Traditional Systems
- Security of Data
- Complying with legal requirements

Environmental Monitoring

- Physical Threats to Mission Critical Facilities
- The i-BOX!
- Human Error & Negligence
- Intrusion or Sabotage
- Environmental
- Power Monitoring

New Launch by the “Big Boys”

Microsoft launched their latest version of one of the Worlds' most common Server platforms this year. It now offers Virtualisation, Clustering, High Level Security and many

more features and benefits. D2 will explain how this technological advance can help you to save money on your IT infrastructure

If you already use OWA you will love the new version with all the new features and revisions of earlier services that you use everyday.

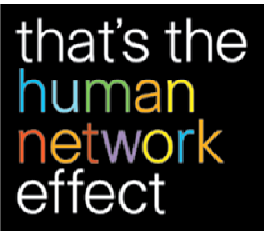

www.microsoft.com/windowsserver2008/en/us

Also available is Exchange Server 2007. You may already use Exchange for your e-mail platform, only now it's not just e-mail.

Check out the link for a more detailed animated demonstration of what it can do

The Latest Cisco “thing”

“When technology meets humanity on the human network, the way we work changes. The way we live changes. Everything changes.”

That's the human network effect.”

In the Next Issue

In the next issue we have newsletter packed full of information, some industry news and a major announcement, IP World and Funny Old World – how are we going to fit it all into four pages??

Is the Enterprise Ready for Cloud Computing?

Just when you thought it was safe to go back in the IT waters, yet another beast emerges from nowhere to potentially baffle and confuse -- cloud computing. But is cloud computing a shark or a whale: is it a trend that should strike fear into the hearts of senior IT professionals or one that they should embrace?

IP World

Did you attend? We have a report on the upcoming event on the 19th of November and news of our next event in 2009

Happy Christmas – Does that count as the first Christmas greeting of 2008?

A few ideas of gifts for the IT savvy reader

Hallmark and UYT detailed case studies for you to explore.

HAPPY HALLOWEEN

Funny Old World

Some genuine amusing newspaper cuttings:

Local child wins gun from fundraiser

Stetson Graves, 19-month-old son of Charlie and Kim Graves, Tompkinsville, was the winner of the 17-caliber Marlin rifle that was given away on Dec. 13 by the Tri-County Moose Service Center #2543. The sponsors said they would like to express appreciation to all who supported this fundraiser in any way.

Federal Agents Raid Gun Shop, Find Weapons
